

## Adding the Tegrity Orientation to Content

If you are interested in adding the Tegrity Orientation to your class, this tutorial will show you how to proceed. It is designed to have students view the video before they are able to proceed to your Course Content.

1. From the Navigation Bar, click "Content".

2. Under Content, click "New Module".

3. Step 1: Give your module a title, such as "Tegrity Orientation". Add this to the Short Title heading as well.
- Step 2: Check the Enumeration box if you do not wish to give the module a chapter number.
- Step 3: Click "Save".
- Step 4: Click "Manage Content" to return to the Content page.

**Step 4**

Properties saved successfully (Sep 24, 2008 9:21 AM)

**Properties** | Restrictions | Comments

Parent Module: --None--

\* Title: Tegrity Orientation **Step 1**

Short Title: Tegrity Orientation

Enumeration:  Hide enumeration for this module **Step 2**

**Step 3**

4. Your next step is to link the video to the course. Click the first icon on the right, "New Topic".

Tegrity Orientation
 

5. On the "Quicklinks" screen,
- Step 1: Enter a name for the video under "Title" and "Short Title".
- Step 2: Check the box to the right of "Enumeration".
- Step 3: Add the URL for the Tegrity orientation video:  
<http://itech.nwfsc.edu/orientation/index.html>.
- Step 4: Click "Save".
